

DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection

N683336546

FACILITY: Wolverine Power, Gaylord Generating Station		SRN / ID: N6833
LOCATION: 2700 Millbocker Road, GAYLORD		DISTRICT: Cadillac
CITY: GAYLORD		COUNTY: OTSEGO
CONTACT:		ACTIVITY DATE: 09/08/2016
STAFF: Becky Radulski	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MAJOR
SUBJECT: self initiated		
RESOLVED COMPLAINTS:		

Stopped by Wolverine Gaylord to view operation following meeting at A&L Iron, located adjacent to Wolverine to west. A&L mentioned hearing the Wolverine Plant start up around 5:30 am and being louder than they remember. Stood outside A&L's office discussing this the sound, neither A&L Staff nor myself could hear Wolverine operating at that time.

Left A&L and parked on road in front of Wolverine. All three units were operating, as heat was visible from each stack. No VE, no odors. The units appeared to be operating as normal. Noise was as to be expected from operation of the 3 turbines at the same time.

As A&L could not hear the turbines while all three were operating, and they also did not wish to make complaint, no follow up needed.
