 AIR QUALITY DIVISION
 ACTIVITY REPORT: Scheduled Inspection

N717741123

FACILITY: Consumers Energy Company		SRN / ID: N7177
LOCATION: 3290 Patterson Ave SW, GRAND RAPIDS		DISTRICT: Grand Rapids
CITY: GRAND RAPIDS		COUNTY: KENT
CONTACT:		ACTIVITY DATE: 06/22/2017
STAFF: David Morgan	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT:		
RESOLVED COMPLAINTS:		

On June 22, 2017, AQD staff, Dave Morgan, conducted a site evaluation at 3290 Patterson Avenue in Cascade Township. The purpose of the evaluation was to verify that the Consumers Energy diesel-fired electric generator permitted under Permit To Install No. 177-02 was no longer installed. This generator was permitted in order to also supply power to GE Aviation located at the same address.

Additional information from Cameron Main of GE Aviation confirmed that the unit was removed due to a lack of use. AQD staff verified that the generator no longer exists on site.

Matt Hall of Consumers Energy indicated that the unit was moved to another location in 2014 and re-permitted under PTI No. 50-14 (see attached).

A request was sent to the AQD Permit Section to have PTI No. 177-02 voided.
