Re: Magiglide, Inc. Notice of Violation dated 1/3/2019

January 21, 2019

Sydney,

Thank you for visiting our facility on 12/19/2018 to discuss correcting the air quality violations regarding Rules R 336.1201 and R 336.1301.

The cause of the violation was our failure to obtain enough log and scrap wood for fuel. This was ongoing from 5/14/2018 to 1/22/2019. On 1/22/2019 we began receiving and burning locally sourced firewood.

To achieve compliance with the rule requiring us to avoid the use of our scrap particleboard for fuel we have begun to use log firewood and wood scraps exclusively for fuel for our woodstove. The stove tender has been advised to not burn particleboard and use real wood in its place.

Landquist & Son, Inc./Magiglide, Inc. hopes these measures will prove satisfactory to the Michigan DEQ.

Please contact me if you have questions or require additional information.

Sincerely,

Peter Paraventi
Plant Manager
Magiglide, Inc.
