SUBJECT: Inspection of a Minor Source		
RESOLVED COMPLAINTS:		

On January 24, 2014, I conducted a Scheduled Inspection at Atlas Tube, Inc. (source), located at 13101 Eckles Rd., Plymouth, Wayne County. The purpose of the inspection was to determine whether the source was present and operating at the said location. The inspection was also to determine the source's compliance status with the State and Federal Air Quality Rules & Regulations. Mr. Steve Monet, HR/Safety Manager, represented the source during the inspection.

THE INSPECTION

- The source is a steel tubing manufacturing facility.
- The source runs the following operations and process equipment:
 1. Uncoiling steel rolls
 2. Steel welding – This is exempt from the provisions of R201 by the provisions of R285 (i).
 3. Spiral Accumulator
 4. A series of steel forming passes through a mill
 5. Steel forming into required geometric shapes such as squares, rectangles or round.
 6. Steel cutting
 7. Storage and delivery
- None of the above operations or process equipment is subject to provisions of R201.

CONCLUSION

The source has been operating in compliance with the State and Federal Air Quality Rules & Regulations, and does not need to obtain a PTI.
