

DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection

N825329108

FACILITY: LES SCHAPER		SRN / ID: N8253
LOCATION: 2167 CASEVILLE RD, PIGEON		DISTRICT: Saginaw Bay
CITY: PIGEON		COUNTY: HURON
CONTACT: Les Shaper , Owner		ACTIVITY DATE: 04/09/2015
STAFF: Sydney Bruestle	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Incinerator inspection		
RESOLVED COMPLAINTS:		

Sydney Bruestle visited Les Shaper Farms on April 9, 2015 around 10:00 am. This facility holds and active PTI (PTI 75-09) for a diesel fueled hog incinerator. The incinerator was not in operation, but had an after burner installed. The incinerator is only able to burn ~300 lbs. at a time and runs for only 1 hour at a time before shutting off, then is restarted several times a day to burn one large Pig. This is in compliance with the 500 lb. maximum charge limit and 140 lbs./hr. burn rate limit outlined in the PTI. Records showed the secondary chamber burns at temperatures between 1800- and 2200 degrees Fahrenheit, which is in compliance with the minimum burn temperature of 1450 degrees Fahrenheit. Proper material and temperature records are being kept for the incinerator as outlined in the permit. Les Shaper Farms is in compliance with PTI 75-09.
