Jackson MI 49201-1556

Dear Mike,

This letter is in regards to a violation notice against Target Trucking, LLC after an inspection on October 16, 2017 at 13650 Bohne Road, Grass Lake, Michigan.

The first violation was Rule 201-No Permit to Install - An equipment supplier brought a small portable crushing plant with no water spray bar into our location to demonstrate. That plant was removed from our property just shortly after you visit. We did not purchase or rent the crusher.

The second violation was 40 CFR Part 63, Subpart ZZZZ for 3 diesel power engines. We currently are maintaining regular maintenance records and are further looking into rules and regulation for those engines for state and federal levels.

I have included a copy of the original violation notice for your reference.

Sincerely,

Jeff Burell
