SUBJECT: Unannounced scheduled compliance inspection for exempt equipment.		
RESOLVED COMPLAINTS:		

Inspected by: Michelle Luplow

Plant Contact: Pam Kelly, Human Resources (Pam.Kelly@etmenterprises.com)

**Purpose:**

Unannounced scheduled compliance inspection of exempt equipment, specifically paying attention to whether a rib laminate line installed in 2010 is truly exempt under Rule 290.

**Inspection:**

I arrived onsite at approximately 9:00 a.m. and found that ETM was no longer in business at the Grand River site. A man pulled up to my car and told me that ETM was no longer there because their contracts had been pulled. I spoke to Pam Kelly, Human Resources for ETM, who verified the closure: ETM had two contracts with Damon's to build parts for windmill turbines, but Damon's had pulled both contracts. She said that ETM left the site in October 2012, and is considered a permanently closed site.
