

DEPARTMENT OF ENVIRONMENTAL QUALITY
 AIR QUALITY DIVISION
 ACTIVITY REPORT: On-site Inspection

P014172223

FACILITY: Going Green		SRN / ID: P0141
LOCATION: 1110 Fulford, KALAMAZOO		DISTRICT: Kalamazoo
CITY: KALAMAZOO		COUNTY: KALAMAZOO
CONTACT: Doug Dodson , Owner		ACTIVITY DATE: 06/11/2024
STAFF: Michael Cox	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Scheduled Unannounced Inspection		
RESOLVED COMPLAINTS:		

On Tuesday June 11, 2024, AQD Staff Michael Cox (MTC) conducted an unannounced scheduled inspection of Going Green (P0141) located at 1110 Fulford Street, Kalamazoo, MI 49001. The purpose of this inspection was to verify compliance with all applicable air quality rules and regulations and to verify the operating status of the facility. All Permits to Install (PTI's) have already been voided, however the facility is still listed as operating in EGLE's in-house data base MACES. MTC arrived on site at approximately 11:40 am. Going Green historically processed recycled shingles. This location is now Flowers Automotive Recycling. Mr. Ronald Flowers, Owner and Operator of the new business was contacted on site. Mr. Flowers stated that Going Green had vacated the site prior to starting his business at this location, which was about 4 years ago. All process equipment related to Going Green had been removed. MTC questioned Mr. Flowers on the nature of his business and process equipment used to recycle automobiles. Mr. Flowers stated that vehicles, usually wrecked, are manually dismantled at this location. No torch cutting is involved with this process. After the vehicles are dismantled the metal parts are taken to Kalamazoo Metal Recyclers for further processing. No visible emissions or odors related to the facility were noted. The Going Green facility can be marked as permanently closed for SRN: P0141.
