Mr. Matt Deskins  
Environmental Quality Analyst  
Air Quality Division

Reg: Violation notice for SRN: P0491, Berrien County

Dear Mr. Deskins,

It is always pleasure working with you and we appreciate very much for all your time and help with compliance matters. This letter is in response to the violation notice, dated April 17<sup>th</sup>, 2018. Below is the synopsis of the cause of the violation, the response and further action that was taken.

Before the booth installation started on 03-01-2018, I tried reaching out to DEQ's permit division but had no success for a week because of changes in personnel and phone numbers. Finally, I was able to speak with permit division and explained our situation. They looked into our permit and seen no issues adding another booth to our existing permit. Revisions to the existing permit paperwork fell behind before we could start the booth erection because of the man power availability. This was our older booth and had a very short window to get this booth erected. Apologize for falling short on revising our existing permit in a timely manner but this is in works and hoping to get the approval for this booth installation by 06/22/18. In the future, we will make sure we start this permit paperwork process well ahead to be in compliance. If you need any other details, please feel free to contact me through an email or phone.

Sincerely,

A handwritten signature in black ink, appearing to read "Siva", with a long horizontal line extending to the right.
