Dear Mr. Huyser:

**VIOLATION NOTICE**

On August 20, 2018, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted an inspection of the area around Dynamic Crushing LLC located at 740 Ann Street, Grand Rapids, Michigan. The purpose of this inspection was to determine Dynamic Crushing LLC's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and to investigate a recent complaint which we received on August 20, 2018, regarding fugitive dust and fallout attributed to Dynamic Crushing LLC's operations.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Non-metallic mineral crushing	Permit to Install No. 140-17, Special Condition III.1;  Rule 901(b)	AQD staff observed unreasonable amounts of fallout offsite.

In the professional judgment of AQD staff, the dust fallout that was observed offsite was of sufficient intensity, frequency and duration so as to constitute a violation of Rule 901 of the administrative rules promulgated under Act 451 and Permit to Install No. 140-17, Special Condition III.1. The fallout heavily impacted at least 11 vehicles, and moderately impacted additional vehicles.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by September 28, 2018 (which coincides with 21 calendar days from the date of this letter). The written response should include: the dates the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.
