SUBJECT: On-site Inspection		
RESOLVED COMPLAINTS:		

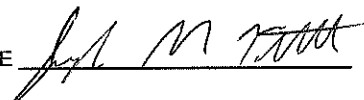

On August 22, 2019, AQD staff Joe Forth conducted a scheduled inspection of Briskey Brothers Construction (P0720) located at 3660 Carpenter Rd, Ypsilanti, MI 48197. The purpose of the inspection was to determine the facility's compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources and Environmental Protection Act, 1994 Public Act 451, as amended, MDEQ-AQD Air Pollution Rules, and Permits to Install No. 152-16.

I arrived at the location at 10:30 am. I was met by Rob Briskey who accompanied me at the site. I presented my credentials and stated the purpose for inspection. There was no crushing equipment currently at the site. Only material at the site was uncrushed, large concrete that was being stored there. There did not seem to be any issue with dust at the site. Mr. Briskey told me he wished to keep the permit in case they ever decide to crush at that site again. A complete evaluation of PTI No. 152-16 was not able to be performed.

According to MAERS the facility did not operate in 2018 or 2017.

I instructed Mr. Briskey to notify the AQD when he plans to operate at that site in the future.

The permittee appears to be in compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources and Environmental Protection Act, 1994 Public Act 451, as amended, MDEQ-AQD Air Pollution Rules, and 152-16.
