

DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection

P073636320

FACILITY: LAKESTATE INDUSTRIES		SRN / ID: P0736
LOCATION: 1831 NORTH 21 STREET, ESCANABA		DISTRICT: Upper Peninsula
CITY: ESCANABA		COUNTY: DELTA
CONTACT: PAUL HAY ,		ACTIVITY DATE: 09/01/2016
STAFF: Joel Asher	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: Follow up on PTI #1010-80		
RESOLVED COMPLAINTS:		

PTI #1010-80 was issued to the Lakestate Industries on 2/27/1981. On 9/1/2016 I conducted an unannounced inspection of this facility. My contact was Mr. Paul Hay.

Mr. Hay and I discussed PTI #1010-80. Mr. Hay stated all the equipment permitted in the PTI has been removed and replaced with newer equipment in 2000. The process at the site remains the same.

The facility employs 3 staff who oversee 8 to 15 clients and provide vocational rehabilitation employment. Lumber is received and made into pallet stock for manufacturing companies in Wisconsin. Survey stakes are also made and sold to the public. All wood working processes have sawdust collection. The collection system pneumatically conveys the sawdust material outside into semi-trailers. The sawdust collection system was replaced about a year ago. It is a one pipe system and appears to be working effectively.

Larger wood waste is collected and placed outside for combustion in their outdoor boiler which was installed about 6 years ago. Additional wood waste is sold to the public for firewood.

A note will be sent to Ms. Sue Thelen of the Permit Section to request to void PTI #1010-80 as that permitted equipment has been removed. The new equipment is exempt from permitting requirements.

This facility will be removed from the UP district inspection database.
