RESOLVED COMPLAINTS:		

On March 30, 2017, I inspected Northern Promotions LLC in Lachine. This business is located in the former Long Rapids School, on Long Rapids Road.

Mr. Kevan Rogers showed me around the facility.

Northern Promotions assembles picture frames at this facility. They sell framed prints or just frames to wholesale, manufacturing, and retail customers. Frames are wood treated with various stains and a cellulose-based varnish.

The facility has some small woodworking equipment. I didn't see anything that would require a permit.

PI 22-17, a general permit for coating, applies to a spray coating system which hasn't been installed yet. Mr. Rogers showed me where it will be. They have a building under construction south of the original building which will house this operation.

Mr. Rogers described the coating equipment as a cabinet through which molding would pass, being sprayed by three spray applicators as it passes through. Any drips would return to the process. He said the stack will be 1.5 times building height, to meet good engineering practice. They will have a filter to prevent escape of droplets.

Coating equipment is not in place yet. Other equipment appeared to be well maintained.
