re: Violation Notice of October 2, 2023

Dear Ms. Khan,

Fletcher Precision Paint is in receipt of your Violation Notice of October 2, 2023.

As you know, Fletcher Precision Paint has permanently ceased operations. Our last day of operations was October 7, 2023. I have sent an email to the Permit Section in Lansing requesting that Permit-to-Install #161-17 be voided.

I understand that you have been in contact with our consultant regarding this matter. Per his instruction, we are hereby notifying EGLE that the facility has permanently shut down. The equipment associated with the PTI has been disabled and an auction will soon take place to dispose of the equipment.

Please let me know if you have any questions or require additional information. I can be reached via telephone at 248-722-1305.

Sincerely,

Terry Fletcher, Owner
Fletcher Precision Paint
