On March 31, 2017 we where in contact with Mr. Liveson by phone notifying him that as of today Mr. Copple had not received his copy of the violation notice sent to his location but we had an emailed copy. Pro M Restoration Specialists have met with Groveland Twp Building & Planning departments last week and submitted drawings and filter specifications for the installation of a spray booth exhaust system to correct this violation outstanding. We are in receipt of electrical & mechanical permit applications, (to be filled out & submitted by our licensed contractors). We have been in contact with the Building & Planning Administrator Ms. Kerri Allen of Groveland Twp, which is overseeing our project. As soon as we are issued permits to commence work, we will be doing so in a timely manor. We are faxing this letter to you Mr. Liveson at (586)753-3731

Thank you,

Mike Copple
