

Letter to DEQ

This letter is in response to the Vioation notice for FFT composites in Sturgis MI. on March 7 2019.

1. Open containers of waste located outside the facility.
2. Spent filters placed in bages and disposed in Dumpster. Dumpster lid was found open with fiberglass materials located on the ground beside the dumpster. PTI 189-17 SC111

On March 20 2019 we held a safety meeting to address these matters and make correct changes. I have added

a copy of the traing with this letter. We have made a safe zone for waste materials inside the building.

and have trained all employees to using the dumpster,looking for any solid waste that may have fallen out of the dumpster. And keeping the lids closed.

3. Stack height was lower then 36 feet. Approximately 25 Feet.

We are working with Frank Stellner Of S+S Custom Mechanical LLC 103 Magolia St. Sturgis Mi 49091. Phone 269-625-6793

Frank is asking for 60 days to have the changes made to the building blue prints and get city approval. This will need to be done before he can add to the stack height. Frank has stated you may call him on this matter if needed.

Thank you
Doff Fugate

Violation Safety Training

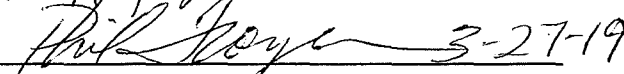

On March 7 of 2019 FFT composites received a violation from the Department of Environmental Quality (DEQ) Air Quality Division.

1. Open containers of solid waste left outside the facility (building).
2. Spent filters placed in bags and disposed of in Dumpster. Dumpster lid was found open with fiberglass materials located on the ground beside the dumpster.

On March 20 of 2019 a safety meeting to address these matters with a corrected action moving forward from this date on.

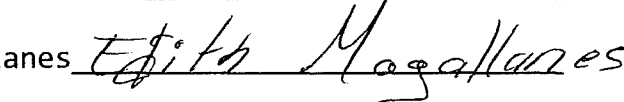

1. All waste is to be placed in the designated safe zone until fully cured (over night) and deemed safe for removal. Any failure to do so can result in a Disciplinary action.
2. When using the dumpster make sure all solid waste is inside the the dumpster. Do a walk around the dumpster to make sure the area is clean of all fiberglass materials. Make sure lids on the dumpster are closed and in place. Any failure to do so may and can result in Disciplinary action.
3. if you have any questions, or unsure please ask myself, Phil, or Tammy Trained Employees
