RESOLVED COMPLAINTS:		

The purpose of this inspection was to determine compliance with Permit to Install Number 236-75. This permit is for a concrete storage silo with associated dust collection. I visited the location on the PTI at 200 East River Street in Manistee. This location is currently occupied by the US Fish and Wildlife Service. A review of the site indicated no cement storage silo or any other permittable equipment. It is recommended that this permit be voided and marked as permanently closed.
