Dear Mr. Lavery:

VIOLATION NOTICE

On October 19, 2020, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), issued air use permit 61-20 to Quality Roasting Inc. located at 135 South Bradleyville Road, Reese, Michigan.

The following violation is noted:

Process Description	Rule/Permit Condition Violated	Comments
Roaster and Meal Cooler	PTI 61-20 - FG Process V (1)	Stack testing deadline of March 31, 2021 was not met.

Stack testing was initially postponed until April 14, 2021, due to problems with installation of the third press. Though the meal cooler was tested, the roaster was not. Cyclonic flow in the roaster stacks was noted by the testing firm. Straightening vanes need to be installed in both roaster stacks well before the testing being tentatively scheduled for early to mid-May based upon the testing firm's availability.

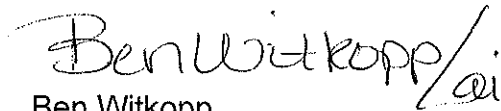

Given the circumstances noted above no response is necessary.

If Quality Roasting Inc. believes the above observations or statements are inaccurate or do not constitute a violation of the applicable legal requirement cited, please provide appropriate factual information to explain your position.

Mr. Jeff Lavery
