Dear Stephen Messina:

VIOLATION NOTICE

On July 26, 2023, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection of Messina Trucking Inc. located at 2218 Juengal Road, Shelby Township, Michigan. The purpose of this inspection was to determine Messina Trucking's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Permit to Install (PTI) number 83-19.

During the inspection, staff observed the following:

| Process Description | Rule/Permit Condition Violated | Comments |
|---|---------------------------------|---|
| FGCRUSHING, Design/Equipment Parameters | FGCRUSHING SC IV.2 of PTI 83-19 | <p>The permittee has two transfer conveyors. The material between 1" and 3" in diameter is caught up in the first deck of the screen and conveyed to a storage pile as 1" x 3" aggregate. However, the facility has no belt scale to measure the weight of the 1" x 3" aggregate materials that the facility produced during the operation. This is a violation of SC IV.2 of PTI 83-19. The permittee is required to install a belt scale on the transfer conveyor portion that carries 1" x 3" aggregate materials.</p> <p>Material smaller than 5/8" in diameter falls to the second deck of the screen and is conveyed to a storage pile as 21AA aggregate. On August 3, 2020, the permittee installed a belt scale on the transfer conveyor's portion that carries 21AA aggregate materials.</p> |
