EGLE, AQD Warren District
Joseph A. Jaskowski
27700 Donald Court
Warren MI 48092

Dear Mr. Jaskowski,

I am writing to address the violation notice we received from your agency (Michigan Air Pollution Control Rules R 336.1201(1) due to complaint number C-23-01783) on August 16, 2023.

In your original violation notice, it was pointed out that we needed to take specific actions to correct the violation. However, the notice did not explicitly state that we were required to halt production during the correction process. This ambiguity in the original violation notice led us to believe that we were permitted to continue production while simultaneously taking the necessary actions to address the violation.

In response to the original violation, our company took immediate and comprehensive steps to initiate the actions required to rectify the situation. We are pleased to inform you that we have successfully obtained Permit to Install No. 104-23, confirming our commitment to complying with all necessary regulatory requirements.

We remain fully dedicated to continuing our operations in a manner that aligns with environmental standards and regulations. If there are any additional steps or actions required from our end to address this matter fully, please do not hesitate to inform us, and we will take immediate action.

Thank you for your understanding and cooperation in resolving this issue. We look forward to your guidance and assistance in maintaining a compliant and environmentally responsible operation.

Sincerely,

Kent Pass

Crusher Brothers LLC.
