 AIR QUALITY DIVISION
 ACTIVITY REPORT: Self Initiated Inspection

U12160973435929

FACILITY: Envirolite Specialty Foams Products		SRN / ID: U121609734
LOCATION: 421 Race Street, Coldwater		DISTRICT: Kalamazoo
CITY: Coldwater		COUNTY: BRANCH
CONTACT: Brad Patterson , Plant Manager		ACTIVITY DATE: 08/10/2016
STAFF: Dale Turton	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: Foam Products		
RESOLVED COMPLAINTS:		

Staff conducted a self-initiated inspection of this facility. AQD had not previously inspected this operation. This plant was started up about 6 months ago.

This company makes foam products. They receive foam from another manufacturer and convert it into various products. They use various saws to shape the foam into the desired size and shape.

They do not expand their own foam, so there are no ovens. The saws that are used do not create enough dust to warrant having an outside exhaust. There is no laminating as of yet at this facility. A shrink wrap machine is used that has no emissions.

The only thing in the plant that has any potential air pollutants are the ceiling mounted space heaters. These units are all exempt from the need to get a permit.
