TO DEQ

ON NOVEMBER 21ST YOU
RECEIVED A COMPLAINT FROM
MY PAIN IN THE ASS NEXT
DOOR NEIGHBOR

NO SANDBLASTING WAS INVOLVED
I WAS USING A VERY HIGH
PRESSURE WASHER, WATER ONLY
TO REMOVE YEARS OF MUD
FROM A OLD TRUCK BOX.

I AM TRYING TO GET A
PAINT STRIPPING OPERATION
SETUP WITH INCLUDES
A SEPERAT BUILDING TO
CONTAIN EVERYTHING
+ FILTER ANY DUST THAT
MIGHT ON MIGHT NOT CREATE
DUST

I WILL TRY TO BE SET
UP BY SPRING OF 2014
TAKES TIME + MONEY

I TALKED TO MR DONLAP
ABOUT WHAT I NEED
TO DO

ANY QUESTIONS FEEL FREE
TO CALL

Mr. Don Bonomo
Bonomo's Collision Center
58209 M-51 South
Dowagiac, Michigan 49047

Dear Mr. Bonomo:

VIOLATION NOTICE

On November 21, 2013, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), received a complaint of fugitive dust from a sand blasting operation conducted at Bonomo's Collision Center, located at 58209 M-51 South, Dowagiac, Michigan. Sand blasting operations with externally vented emissions are required to have appropriate controls. On September 3, 2012, staff of the AQD spoke with you on the telephone about the sand blasting operation. It was mentioned that a special system was in place to prevent dust. However, without an enclosure or filters in place, the existing system may not be adequate to control dust.

Below is a summary:

Process Description	Rule/Permit Condition Violated	Comments
Sand blasting operation	R 336.1201(1) - Rule 201	Sand blasting operated outside without permit and generating dust.

It is noted that Bonomo's Collision Center had installed and commenced operation of an unpermitted sand blasting operation.

A program for compliance may include a completed Permit to Install application for the sand blasting process equipment. An application form is available by request or at the following website: http://www.deq.state.mi.us/aps/nsr_information.shtml#AUP

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by December 17, 2013, which coincides with 21 calendar days from the date of this letter. The written response should include: the dates the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.

Proposal
