DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection

U22170123538808

FACILITY: WALMART		**SRN / ID:** U221701235
LOCATION: 1920 EAST STEPHENSON AVENUE		**DISTRICT:** Upper Peninsula
CITY: IRON MOUNTAIN		**COUNTY:** DICKINSON
CONTACT: PETER KRYPCZAK , ASSISTANT MANAGER		**ACTIVITY DATE:** 03/02/2017
STAFF: Joel Asher	**COMPLIANCE STATUS:** Compliance	**SOURCE CLASS:**
SUBJECT: Waste oil collection		
RESOLVED COMPLAINTS:		

The DEQ, Waste Management & Radiological Protection Division provided the AQD with a list of facilities permitted to collect waste oil generated off site. This permit from WMRPD may contain facilities that also require an Air Use Permit in the event this oil is being burned in a waste oil furnace.

On 3/2/17, I conducted an unannounced inspection of the Walmart store located at 1920 South Stephenson Avenue in Iron Mountain, MI.

Initially I talked with Mr. Keith Process in the Tire, Lube, & Express department. Mr. Process explained they do collect waste oil and petroleum products from the public as well as work done on site.

Records are kept of all material collected from the public with the name, date, and amount accepted. A tank is kept outside in a locked location where all public oil is collected. Only staff pour materials into the tank. Oil filters are also collected.

All waste oil generated on site is collected in a 700 gallon tank in the basement below the repair bay.

Waste oil products from both tanks are collected by Halron Lubricants out of Green Bay, WI. They come and empty the tanks a few times each month, or as necessary.

No oil is burned on site. All collected oil is removed by Halron Lubricants.

I also talked with Mr. Peter Krypczak, the Assistant Manager. I informed Mr. Krypczak of the purpose of this inspection. He stated they have no intention of installing a waste oil furnace.

This facility appears to be operating in compliance with the Air Pollution Control Rules and has no need for an Air Use Permit. The facility can be removed from the inspection database.
