RE: SRN/ID U252301581 Genesee County

Dear Craig,

On August 8, 2023, an inspection was performed at 210 E. Flint Park, Flint, MI. Broken and crumbled pieces of transite were observed on the ground and still on the siding's insulation. It was a violation of 40 CFR §61.145(c)(1), failure to remove all regulated asbestos containing material. Our inspectors missed this property after it was completed. Our inspector was able to get to the property in question and rectify the situation on August 8, 2023. He completely cleaned up the perimeter of the property and removed the remaining transite and the siding insulation off the exterior of the home. Moving forward, we will be more diligent in inspecting the houses with our crew performing the work as well as the inspectors coming after the crew. We are dedicated to providing quality service and we want to continue to do so. If you have any questions, comments or concerns please feel free to reach out to me. Please see photos of completed work attached.

Sincerely,

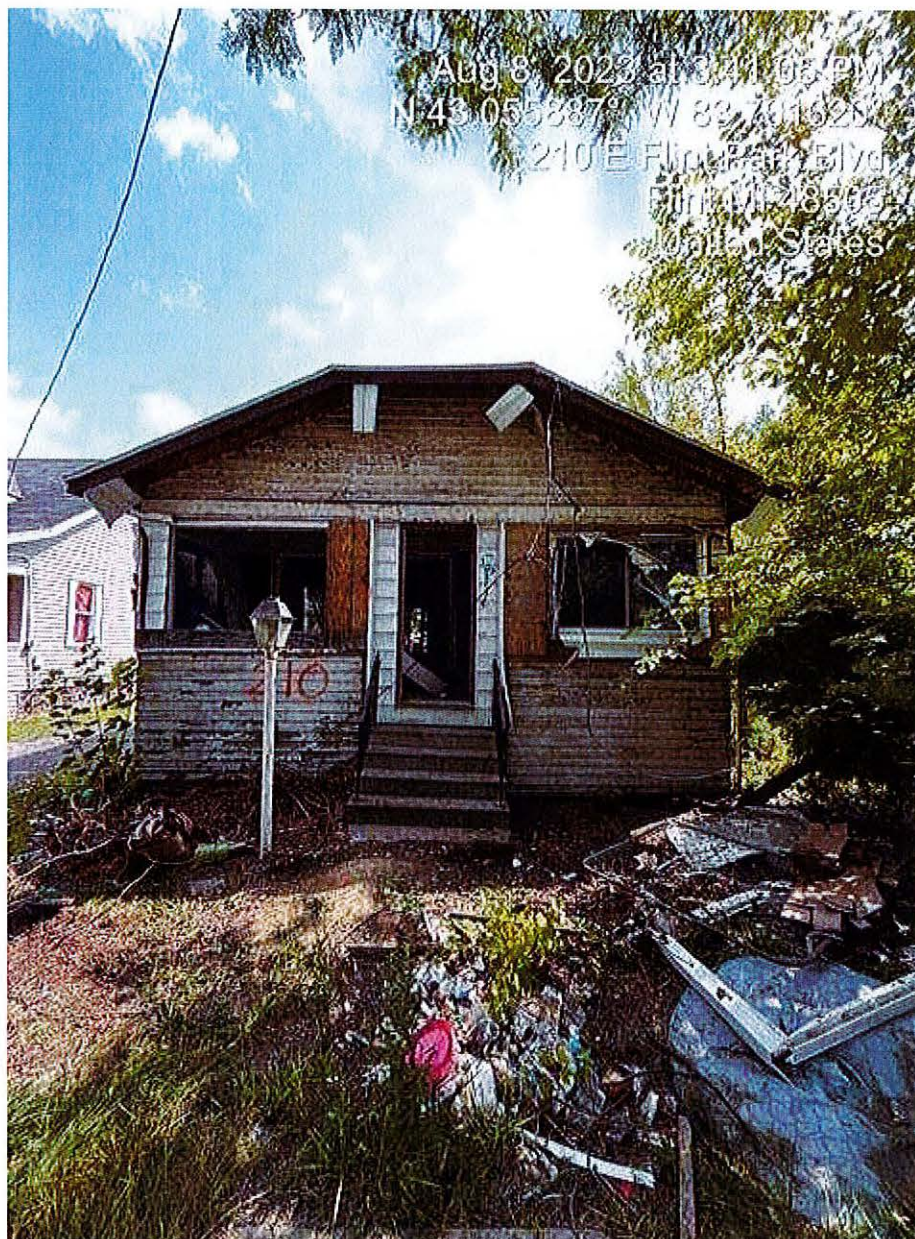

David Gillespie
President
