SUBJECT: Unscheduled, self initiated site inspection to Lyle Machines, Beaverton, Michigan. Company purchased by competitor, and building for sale.		
RESOLVED COMPLAINTS:		

On March 17, 2016, AQD District Staff arrived on site at the Former "Lyle Machines" site in Beaverton, Michigan to conduct an unannounced site inspection. The Lyle Facility was a manufacturer of thermoforming machines. No permits were of record for the facility.

Upon arrival at neighboring Brown Machines of Beaverton, Michigan, for their scheduled site inspection it was determined that in the last couple of years Brown bought Lyle out, moved the machinery/equipment to their site, and the former Lyle site is presently for sale.
