

## Violation Notice Response

Violation 1: Incineration unit-Rule 201. This violation occurred on July 28, 2022- operating with a permit to install. We were not aware that a permit was needed to install the incinerator. Since this violation the fuel lines have been disconnected, as shown in the picture, and is no longer operational.

Violation 2: Two Emergency Generators- NSPS Subpart IIII. With our response you will find spec sheets for our 3 generators in question. Spectrum Detroit Diesel- 306 hours at purchase with 373 hours now and was installed April 2020. Genset Cumins- not purchased new but unable to find how many starting hours. Now has 1146.7 hours and was installed December 2017. Cumins Power Generation- Purchased new and now has 398.5 hours and was installed onsite in 2001. These generators are for emergency use only and we were not aware they required a permit.
