Dear Mr. Van Der Hulst and Mr. Sullivan:

VIOLATION NOTICE

On August 25, 2016, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), performed asbestos inspections at 531 & 535 Prospect Avenue and also at 514 Lafayette Avenue, Grand Rapids, Kent County, Michigan. The purpose of these inspections was to determine compliance with the requirements of Title 40 of the Code of Federal Regulations, Part 61, Subpart M (National Emission Standard for Asbestos), and Rule 942 of Part 55, Air Pollution Control of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

According to our investigation, Grand Valley State University owns these properties and Specialized Demolition Inc., performed the abatement activities at the sites. The National Emission Standard for Asbestos holds both the owner and operator equally liable for violations.

During the investigation, DEQ-AQD staff, Mr. Jeremiah Brown observed the following:

The subject properties had been abated on July 26, 2016 and August 24, 2016 and it appeared that the contractor/operator was finished with the abatement, due to the expiration of the Planned Renovation notification that was submitted. During the inspection, regulated asbestos-containing material (RACM) (pipe wrap & duct wrap TSI) was found and was missed during the abatement activities.

Process Description	Section Violated	Comments
Failure to remove all RACM from the structure during abatement activities.	§61.145(c)(1)	Failure to remove RACM
