VIOLATION NOTICE

Dear Mr. Wentworth and Mr. Treichel:

On June 2, 2020, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD) performed an asbestos NESHAP (National Emission Standard for Hazardous Air Pollutants) inspection at 114 East Hines Road, Midland, Midland County, Michigan. The purpose of this inspection was to determine compliance with the requirements of Title 40 of the Code of Federal Regulations (40 CFR), Part 61, Subpart M (National Emission Standard for Asbestos), and Rule 942 of Part 55, Air Pollution Control of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

According to my investigation, Stone Specialists, Inc. owns the subject property, Pat's Gradall Service, Inc. performed the demolition activities. The National Emission Standard for Asbestos holds both the *owner and operator* equally liable for any violations.

During the inspection, staff observed the following:

The subject property had on-going demolition and loadout of debris of the subject building due to roof collapse during the flooding event. The demolition contractor did not submit a 10-day notification and did not have an asbestos contractor supervisor on-site.

VIOLATION NOTICE

Mr. Wentworth and Mr. Treichel
