Dear Mr. Burgess:

SECOND VIOLATION NOTICE

On June 8 and June 27, 2016, the Department of Environmental Quality (DEQ), Air Quality Division, performed an asbestos NESHAP (National Emission Standard for Hazardous Air Pollutants) inspection at 2121 Sanford Street and at 2828 Baker Street and also at 2916 Baker Street, Muskegon, Muskegon County, Michigan. The purpose of these inspections was to determine compliance with the requirements of Title 40 of the Code of Federal Regulations, Part 61, Subpart M (National Emission Standard for Asbestos), and Rule 942 of Part 55, Air Pollution Control of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

On July 7, 2016, the AQD sent you a Violation Notice citing violations discovered as a result of these inspections and requested your written response by July 28, 2016. A copy of that letter is enclosed for your reference. We have not received your response addressing the items in that Violation Notice.

Please be advised that failure to respond in writing and identifying the date(s) the violations occurred; an explanation of the causes and duration of the violations; whether the violations are ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violations, and the date(s) by which these actions will take place; and what steps are being taken to prevent a reoccurrence, may result in escalated enforcement action by the AQD. Please provide the information requested in our July 7, 2016, letter by September 30, 2016, which corresponds to 10 days from the date of this letter.

Be further advised that issuance of this Violation Notice does not preclude or limit the DEQ's ability to initiate any other enforcement action under state or federal law as appropriate.
