401 Ketchum St., Suite B
Bay City, MI 48708

To Whom it May Concern;

This letter is in response to the violation that occurred on August 9th and August 10th, 2018 following the demolition of the properties at 800 Hoyt Avenue and 802 Hoyt Avenue, Saginaw, MI. The demolition project was overseen by my team as well as AKT Peerless. This demolition was handled as if all materials included in the seven (7) loads taken from the project were to contain asbestos with the exception of the notification process to People's Landfill Inc.

This violation followed my recent decision to come out of retirement from demolition work and a lack of full time secretarial assistance. This was a onetime occurrence, it has since been corrected with proper notification, and will not occur again. I have since acquired a full time Administrative Assistant who has worked with me to establish and maintain a chain of procedures to be followed to ensure this violation does not occur in the future.

As previously stated, this was a onetime occurrence and my office, team, and I have implemented a checklist in order to maintain the policies and procedures set in place by the DEQ.

I appreciate your time and consideration following this unfortunate instance and look forward to speaking with you should you have any additional questions or concerns.

Thank you,

Demetrius Braddock
