Dear Mr. Miller:

VIOLATION NOTICE

On July 3, 2019, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection of asbestos-containing waste materials disposed at Citizen’s Disposal Landfill, 2361 West Grand Blanc Rd., Grand Blanc. The waste material came from abatement projects located at the following residential properties located in Saginaw:

- 218 Tittabawassee Road (SRN: U731906037)
- 1313 E. Holland Avenue (SRN: U731905914)
- 2317 Hammel Street (SRN: U731905903)
- 1905 S. Washington Avenue (SRN: U731905898)
- 2527 E. Remington Street (SRN: U731905909)

The purpose of this inspection was to determine the Saginaw County Landbank Authority’s and Rightway Remediation, LLC’s compliance with the requirements of Title 40 of the Code of Federal Regulations (CFR), Part 61, National Emission Standards for Hazardous Air Pollutants (NESHAP), Subpart M and Rule 942 of the administrative rules promulgated under Part 55, Air Pollution Control of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

According to our investigation, the Saginaw County Land Bank Authority owns the subject residential properties and Rightway Remediation, LLC performed asbestos abatement activities at the residential properties. The NESHAP for Asbestos holds both the owner and operator equally liable for violations.

During the inspection, EGLE staff Craig Dechy and Tammy Bell noted the following violations:

| Process Description | Section Violated | Comments |
|---|------------------------|---|
| Inspection of asbestos containing waste material at Citizen’s Disposal Landfill | 40 CFR 61.145(c)(4) | Failure to contain in leak tight container-rips and tears were noted in some of the bags. |
| | 40 CFR 61.145(c)(6)(i) | Failure to wet RACM that has been stripped-the material in bags inspected was dry. |
| | 40 CFR 61.150(a)(1)(v) | No generator labels were noted on the waste bags. |
