Dear Mr. Frazeur:

VIOLATION NOTICE

On February 16, 2021, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD) conducted an inspection at 2301 West Dewey Road, Owosso, Shiawassee County. The purpose of this inspection was to determine compliance with the requirements of Title 40 of the Code of Federal Regulations (40 CFR), Part 61, Subpart M (National Emission Standard for Asbestos), and Rule 942 of Part 55, Air Pollution Control of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

According to my investigation, GW Frazeur, Inc., is the owner of the facility and the operator who performed the demolition activities. The National Emission Standard for Asbestos (NESHAP) holds the *owner and operator* liable for all violations.

During the inspection, EGLE staff observed the following:

The building was demolished, and all demolition debris was removed. On July 6, 2020, Fisher Gravel, Construction and Demolition (FGCD), submitted a Notification of Intent to Renovate/Demolish (document #00000401591) for the demolition of the subject facility. However, the notification had been canceled and FGCD did not perform the demolition. GW Frazeur, Inc., failed to have a thorough survey done on the property and failed to provide the Administrator with a 10-working day Notification of Intent to Renovate/Demolish prior to their demolition activities.

On February 16, 2021, EGLE-AQD staff performed a drive-by inspection on the subject facility located at 2301 West Dewey Road, Owosso.
