Dear Ms. Emat and Mr. Kelly:

**VIOLATION NOTICE**

On August 3, 2016, the Michigan Department of Environmental Quality (MDEQ), Air Quality Division, performed an asbestos National Emission Standard for Hazardous Air Pollutants (NESHAP) inspection at 530 First Avenue, Ypsilanti, Washtenaw County. The purpose of this inspection was to determine compliance with the requirements of Title 40 of the Code of Federal Regulations, Part 61, Subpart M (National Emission Standard for Asbestos), and Rule 942 of Part 55, Air Pollution Control of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

According to my investigation, Ms. Beth Emat of the City of Ypsilanti, Department of Economic Development, is the responsible person for the property, and Mr. Michael Kelly of Environmental Maintenance Engineers, Inc., is the contractor who performed the abatement activities. The abatement of the subject property occurred on August 2, 2016. The National Emission Standard for Asbestos holds both the owner and the operator equally liable for the violation.

During the inspection, staff observed the following: The subject property had Regulated Asbestos-Containing Material (RACM) in the form of duct wrap remaining in the basement after the scheduled project end date. The duct wrap was located on the basement floor and basement steps. Additionally, there was duct wrap still affixed to the duct work located on the overhead flooring.

Process Description	Section Violated	Comments
Incomplete abatement of RACM in the subject residential structure located at 530 First Avenue, Ypsilanti, Washtenaw County. The planned renovation occurred on August 2, 2016.	40 CFR 61.145(c)(1)	Failure to remove RACM.
