Hello, I am responding to the above violation, I am the new owner for the above address, I had a cleaning that was cleaning up all the debris from all around the property and there was a lot of pieces of woods and dead trees on the ground, I burned them in a closed steel barrel , and was not aware of the regulations until I had Mr. Sam Liveson, called me and showed up. All trash remains were picked up by a waste management company . The violation is not ongoing anymore, and this is a promise that will not occur anymore. I apologize again for the inconvenience, and hopefully this statement is an accepted statement.

**Best Regards**

**Hussain Aljalehawy**
