

NOTICE of AIR PERMIT COMMENT PERIOD and PUBLIC HEARING

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) is holding a public comment period and a public hearing to allow the public the opportunity to comment on the proposed conditional approval of an air permit.

The public comment period is open from January 8 to February 24, 2025, with a public hearing, on February 12, 2025, for:

Company: EES Coke Battery, LLC located at 1400 Zug Island Road, River Rouge, Michigan

What is open for comment: Air permit application No. APP-2024-0157 is a request to add a secondary coke screener and associated equipment at the facility.

Technical details:

The public comment period and public hearing are to allow all interested parties the opportunity to comment on the proposed conditional approval of a Permit to Install (PTI). It has been preliminarily determined that the secondary screener and associated equipment will not violate any of EGLE's rules or the National Ambient Air Quality Standards. The facility's impact will not exceed the available increments for particulate matter less than or equal to 10 microns in diameter and particulate matter less than or equal to 2.5 microns in diameter.

Additionally, installation of the secondary screener and associated equipment will require revisions to Renewable Operating Permit (ROP) [No. 199600132d](#) (SRN P0408). This public comment period meets the public participation requirements for a future administrative amendment to the ROP.

Provide comment in any of these ways by February 24, 2025:
