AIR QUALITY DIVISION
ACTIVITY REPORT: Scheduled Inspection**

B189749436

FACILITY: NUGENT SAND CO INC		SRN / ID: B1897
LOCATION: 2925 LINCOLN ST, MUSKEGON		DISTRICT: Grand Rapids
CITY: MUSKEGON		COUNTY: MUSKEGON
CONTACT: Josh Puisis , Quality Control Manager		ACTIVITY DATE: 07/09/2019
STAFF: Chris Robinson	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: FY '19 on-site inspection		
RESOLVED COMPLAINTS:		

Chris Robinson (CR) from the Department of Environment, Great Lakes, and Energy (EGLE) Air Quality Division (AQD) was onsite on July 9, 2019 to conduct an unannounced inspection of Nugent Sand Company Inc. (SRN B1897) to determine the facility's compliance status with respect to applicable State and Federal Air Quality Rules and Regulations. The facility is located at 2925 Lincoln Street in Muskegon, Michigan. The facility does not have any active permits and has operated in the past under grandfathered status.

Upon Arrival CR noticed that the plant and process equipment had been removed. Only the office building remained. CR met with staff who confirmed that this location shut down in September of 2017 and had all of the equipment removed by the end of 2018. Staff informed CR that the contact for this facility is now Josh Puisis who is located out of the Russell Road location. Based on onsite observations, google map review and staff discussions, this facility will be marked as permanently closed in MACES. CR will follow-up with Mr. Puisis to determine the status and location of the equipment that was located at this facility as well reporting requirements for the Russell Road facility.

Several unsuccessful attempts to contact Mr. Puisis were made since the inspection. As of July 16, 2019, CR has not heard back.
