Dear Mr. Durham,

I appreciate your call and apologize for the delay in response to your letter dated September 22nd, 2017. After reviewing your letter, we believe it would be in the best interest of our company to pursue the assistance of a consultant to aid in bringing our existing air permits up to the modern-day format as requested by the MDEQ. While working through this process, we will also address any inconsistencies found during this process. We have targeted the firm of Fishbeck Thompson Carr & Huber, Inc. to assist us with this process, we'll update you regarding our progress once they have digest the scope of work and respond appropriately.

Sincerely,
