Dear Mr. Nobach:

VIOLATION NOTICE

On January 9, 2017, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted an inspection of Oliver Products located at 445 Sixth Street NW, Grand Rapids, Michigan. The purpose of this inspection was to determine Oliver Products' compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); and the Air Pollution Control Rules.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Ten Coating Lines	Rule 201	Failure to obtain permit to install

During this inspection, it was noted that Oliver Products had commenced operation of unpermitted processes at this facility. The AQD staff advised Oliver Products on January 9, 2017, that this is a violation of Act 451, Rule 201.

A program for compliance may include a completed PTI application for the Coating Lines. An application form is available by request, or at the following website:

http://www.deq.state.mi.us/aps/nsr_information.shtml

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.
