05/27/2021	MAERS	Compliance	5/27/21 I have a question as to where the kerosene VOC emissions are accounted for in the report. Company will ask Mark Horne to contact me about that. I will update/pass/fail report as needed after I talk to Mark. 6/1/21 I spoke with Mark Horne and we walked through the spreadsheet- the kerosene is part of the total VOC emissions, which is identified in the material specifications tab. Then, that value is pulled out and listed separately on the 12-month totals tab. The submittal is accurate based on the spreadsheet.
