SUBJECT: Self Initiated Inspection		
RESOLVED COMPLAINTS:		

On Friday, August 23, 2019, Michigan Department of Environment, Great Lakes, and Energy-Air Quality Division (EGLE-AQD) staff, I, Adam Bognar, conducted a self-initiated inspection of Randall E. Couture & Terry Rosa located at 15391 Fish Lake Road, Holly, MI 48442. The purpose of this inspection was to determine the facility's compliance status with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources and Environmental Protection Act, 1994 Public Act 451; Michigan Department of Environment, Great Lakes, and Energy-Air Quality Division (EGLE-AQD) rules; and Permit to Install No. 339-90.

I arrived at this location at about 9 am.

The new business at this location is "Krupp Equipment Inc.". Krupp Equipment Inc. is a bulk transportation contractor. I met with an employee who allowed me into the warehouse and briefly explained the business. There does not appear to be any AQD regulated equipment at this location.

Randall E. Couture & Terry Rosa operated a wood coating line & associated dry exhaust filters at this location in the past. Permit to Install No. 339-90 was issued in 1990 for this process equipment. I was able to verify that this equipment has been removed from this location. Permit to Install No. 339-90 will be voided as a result of this inspection.

The AQD Randall E. Couture & Terry Rosa file will be archived as a result of this inspection.

Compliance Determination

Krupp Equipment Inc. appears to be in compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources and Environmental Protection Act, 1994 Public Act 451; and Michigan Department of Environment, Great Lakes, and Energy-Air Quality Division (EGLE-AQD) rules.

An email was sent to Sue Thelen on September 17, 2019 requesting to void Permit to Install No. 339-90.
