12/16/15

Kerry Kelly
Environmental Quality Analyst
Permit # 936-91

I am writing you in response to the violation notice dated December 4, 2015

The first violation was "R 336.1201" Installed the following crusher without obtaining a permit to install.

The second violation was "40 CFR 60 Subpart OOO" Failure to comply with the applicable requirements, conducting an initial performance test according to 60.11 and 60.675 and submitting written reports of the results of all performance test conducted to demonstrate compliance with the standards set forth in 60.672.

We are started to work with Jennifer Dixon to obtain the appropriate permits and will have all necessary paperwork submitted by mid-January to comply with all State and Federal regulations.

I hope this satisfies the violations we received and if not please advise what further I need to do.

Thank you,

RJ Orozco – Vice President

State Crushing, Inc.
