Dear Mr. Jensen:

**VIOLATION NOTICE**

On July 12, 2019, the Michigan Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection of Bandit Industries located at 6750 Millbrook Road, Remus, Michigan. The purpose of this inspection was to determine Bandit Industries' compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Permit to Install (PTI) number 387-93A.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
EUpreat	Permit 387-93A VI.2	Usage records not being kept
FGcoating	Permit 387-93A VI.3	Usage and emission records not being kept
FGmetalparts	Permit 387-93A VI.3	Usage and emission records not being kept
FGfacility	Permit 387-93A VI.2	Usage and hazardous air pollutant emission records not being kept

Though records were not being kept, Bandit did hire a consultant who subsequently provided records on August 5, 2019. The records complied with permit requirements and no limit violations were found. It should be noted, in 2017 Bandit was not keeping records required by its previous permit, 387-93 and a violation notice was issued.

Please initiate actions necessary to correct the cited violations and submit a written response to this Violation Notice by August 27, 2019 (which coincides with 21 calendar days from the date of this letter). The written response should include: the dates the violations occurred; an explanation of the causes and duration of the violations; whether

If Bandit Industries believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.
