SUBJECT: Annual Inspection		
RESOLVED COMPLAINTS:		

On 7/21/2015, I conducted an annual inspection at Clark Refining & Marketing, located on 795 Gratiot Ave., Marysville. I arrived at the site around 1:50 PM. The site is now belonging to Admiral Gas Station. I talked to Caitlyn Gamble from the gas station & explained the purpose of the inspection. She said that she remembered the gas station used to call Clark gas station, but she couldn't recall when it became Admiral. She didn't aware any dual vapor extraction system on this location. I looked around the area & couldn't find the equipment. There're two sheds on site. The sheds were used to store pops & paper products for the store on site. Since the vapor extraction system is gone, I will advise Lansing Permit Section to void the permit.
