SUBJECT: Scheduled inspection.		
RESOLVED COMPLAINTS:		

Meverden Materials, Inc. is a Wisconsin based company that was issued Permit to Install (PTI) No. 210-99 to operate a portable crushing/screening plant.

On March 27, 2017, I received an email from Mr. Dennis McGeen stating he had spoken with Mr. Leo Meverden regarding his late MAERS submittal and that Mr. Meverden reported he did not operate his plant in Michigan in 2016, but would fill out the MAERS forms and submit them this week.

Because I was assigned to inspect Meverden Materials in fiscal year 2017, I took the opportunity to call Mr. Meverden and inquire if he had plans to operate in Michigan in 2017. He informed me he currently does not have any work lined up in Michigan and has not operated in Michigan in the last several years, but would notify the AQD if that changes. Mr. Meverden expressed interest in keeping his permit active for future operations in Michigan.

At this time, because Meverden Materials is not expected to operate in Michigan in 2017, I consider the inspection complete and the company in compliance.
