Activity Date	Activity Type	Compliance Status	Comments
05/03/2018	Scheduled Inspection	Non Compliance	FCE: Facility appears to be in non-compliance with conditions in PTI 294-00D and PTI 120-02.
05/30/2017	MAERS	Compliance	AQD told the preparer in March that it was okay to delete EUBLINE and EUDLINE because there were no criteria pollutant emissions reported from these emission units for the last several years. Later AQD realized the emission units needed to be in the report because they were permitted, so AQD added EUBLINE and EUDLINE again. EUCOLDCLEAN was added because the facility switched from using toluene in cold cleaners to using MEK. Audit complete.
