Christopher Robinson,

The attached VOC calculations are being submitted to you in response to your visit on October 14, 2019. The past records and calculations were located in December and the binder has been updated. Attached are the calculations for calendar year 2019. As we have only one finishing line, this would be the complete information for our facility.

Petra Schoenwaelder in Purchasing is now recording all of the information and updating the calculations monthly. She will also be maintaining all of the records in the purchasing office.

If you have any questions or if I missed something and you need any further information, please let me know.
