Adam Shaffer  
Environmental Quality Analyst  
Air Quality Division

To Whom It May Concern:

This letter is in regard to the violation pertaining to special condition 1.16 cited on September 19, 2017.

I am writing to propose a change to condition 1.16 part (a). I propose to change (a) Upon start-up of each paving season to (a) Upon the first consecutive production period of 30 minutes or longer during each paving season. Changing this condition would definitely help. We never know at what point we will acquire a large job. A larger job allows us to have the plant run long enough to get the CO readings.

Again, I would just like to stress that we are not a big company like the ones in Grand Rapids. We do not run nonstop. We only run long enough to fill our trucks and the city/county trucks if they show up.

Thank You
