Dear Tom Urbin:

VIOLATION NOTICE

On June 12, 2023, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection of Shelby Cabinets located at 4651 25 Mile Road, Shelby Township, Michigan. The purpose of this inspection was to determine Shelby Cabinets' compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Permit to Install (PTI) number 115-08.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Coating spray booth	Michigan Air Pollution Control Rule 201	The facility operates two spray booths exhausting to two stacks. The facility is permitted for one spray booth exhausting through one stack.

During this inspection, it was noted that Shelby Cabinets had installed and commenced operation of unpermitted equipment at this facility. This is a violation of Rule 201 of the administrative rules promulgated under Act 451.

A program for compliance may include a completed PTI application for the second spray booth. An application form is available by request, or at the following website: www.michigan.gov/air.

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.
