

MID MICHIGAN CRUSHING AND RECYCLING, LLC

October 14, 2020

To Whom It May Concern:

We received an open burning pile violation (Rule 310) on August 20, 2020. This letter is in response to that violation. We have obtained a Tyrone Township burn permit to burn trees and brush from this site. One of our employees had unknowingly burned some furniture on the burn pile. This was a complete oversight and will not happen again. In order to correct the situation, the pile has been completely cleaned up and the employee has been told to not repeat this mistake again.

Thank you,  
Vaughn Smith  
Mid-Michigan Crushing & Recycling, LLC.
