RESOLVED COMPLAINTS:		

During the course of inspection preparations, I learned that this operation had not been located at this site in many years.

I called the current owner of the company, Spurt Industries, who is William Whitley. He stated that he still has the tub grinder, however it is not in use and is for sale.

As the current owner of the equipment and company, he said he will never use the unit for grinding shingles and agreed that the Permit to Install be voided.

I also asked him about the location in Zeeland and he stated he will not be grinding shingles there either.

A Permit to Install Void request has been sent to Lansing, and the void letters will be sent to Mr. Whitley at the address he provided.

The facility has been assigned a status of compliance at the time of this investigation.
